Welborn News Notes.

Alford Forsha is a thrifty and industrious colored man who lives a few miles east of this place. One day last week he sent his son to Welborn with his horse and buggy. The horse was hitched near Mr. A. W. McLeran's horse lot, around which a great many chickens use. A nice, large yellow hen with a top-knot decided she would like to lay in Forsha's buggy. She flew up and secreted herself under the seat. When the boy was ready to go, he did not discover the hen; when near home, however, having laid, she made herself known. The boy did not understand the situation, though, and thought perhaps she was in the buggy when he left home. After learning the incident Alford looked at her henship, and in comparing her with other fowls in his poultry yard, discovered that none of his possessed a top-knot. Thinking perhaps that she came from Welborn, he brought her in last Saturday to ascertain her rightful owner. She was identified as belonging in Mr. McLeran's lot, and when released, seemed delighted to be with her companions once more.

Baraca Class.

The young men's Baraca Class of the First Baptist church met Monday evening at the office of Col. Ira J. Carter, for the purpose of nominating officers to serve for the next six months. The officers nominated are as follows:

President, W. R. Williford; vice-president, W. A. Edwards; secretary, L. A. Crawford; assistant secretary, H. J. Mays; treasurer, James Harris; assistant treasurer, D. G. Bonnell; press reporter, P. L. Tucker; teacher, Ira J. Carter; assistant teacher, Dr. J. W. West. These officers will be elected Sunday morning at the regular semi-annual business meeting, and at which time the several committees will be appointed.

Several new plans were suggested by the different members, which, if put into operation, will be the means of greatly enlarging our class.

Let every member come out Sunday morning and lend encouragement to the new officers by your presence.

We extend to the young men of the city a cordial invitation to visit the class at any time. We meet every Sunday morning at 9:30 at the First Baptist church. We have a membership of thirty young men and more are thinking of joining us soon. If you are not a member of any class in the city, we would like to have you join us.

Rheumatism.

More than nine out of every ten cases of rheumatism are simply rheumatism of the muscles, due to cold or damp, or chronic rheumatism. In such cases no internal treatment is required. The free application of Chamberlain's Liniment is all that is needed, and it is certain to give quick relief. Give it a trial and see for yourself how quickly it relieves the pain and soreness. The medicines usually given internally for rheumatism are poisonous or very strong medicines. They are worse than useless in cases of chronic and muscular rheumatism. For sale by Barclay & Groover, druggists.

Just received a full line of ladies White Canvas Oxfords and Pumps. Harvard's Shoe Store.

To Horsemen:

Thousands of horses and mules caused needless pain and suffering, much time and money wasted, through lack of knowledge on the part of owner or attendant. I have seen the necessity of some practical knowledge in this line to be made accessible to the public. I have often been approached on the subject by different people who felt the need of some knowledge in treating their dumb animals. This has been a great factor in deciding to commence giving these instructions. Both old and young will find that instructions will be invaluable to them in many ways.

My lessons will be on the feet, and diseased feet, shoeing and attendant evils, lameness of the ankle, knee, forearm, shoulder, stifle, and wirbels and how to treat it, colic and its different forms, and how to eliminate them, how to treat them, arthritic and how to prevent it, laminitis, so-called founder, its cause and cure, teeth and how to cure them, how to tell the age by them, how to cure without cutting.

Formulas for the treatment of different diseases, which have been tested by me and found efficient, I can impart to you in a short time, and can get at very little cost this edge that has taken me years of study and practice to acquire.

Bring in your lame or sick horses, mules, have their teeth examined, sharp corners dressed down, long injections cut off, and dropped and extracted. No charges for examinations.
